

# Helping Ohioans with Healthcare Benefit **Choices**

---

## **OAHU Members we need your help!**

With thousands of Ohioans losing their employer health insurance due to recent job losses, many need to better understand their options. As Medicare Open Enrollment and Marketplace Open Enrollment windows are rapidly approaching, Ohio families may have limited opportunities to take advantage of coverage options.

Our goal is to partner with local media outlets to educate, inform and assist Ohioans to enroll in medical coverage. A Telethon type event would allow Ohioans to call in, ask questions and schedule appointments with qualified, local insurance agents to enroll in coverage. In the current COVID-19 environment, our agents are flexible for either on-air strategies, virtual events, interviews, etc. Talking with a licensed insurance professional is free and purchasing Marketplace coverage costs the same with or without the involvement of a licensed professional.

Please take a moment and complete this brief survey regarding this Telethon to determine if you'd like to participate in this effort. Please respond by Tuesday, 9/8
